The H&K Group Announces Sizzlin' Summer Stone Sale

Today, The H&K Group announced a sizzlin' Summer Stone Sale at two of its crushed stone quarries, [Hazleton Materials](#) and [ABE Materials](#). This sale is effective immediately on select products and while supplies last. Details are as follows:

[Hazleton Materials](#), located in [Weatherly, PA](#), is now offering its 2A modified stone at only \$5.88 per ton. This [USCS Classified SC](#) stone is great for structural fill or certified clean fill, as well as backfill, pipe bedding, landscaping, driveways, trails and more.

[ABE Materials](#), located in [Easton, PA](#), is also offering ¾" soil aggregate at only \$3.99 per ton. Soil aggregate makes a great and economical fill material to level a surface or backfill an excavated area.

All material can be purchased on site and hauled, or schedule delivery as you need it. Delivery is not included in price. No maximum or minimum quantities are required, but for large orders please call ahead to ensure availability.

For more information on these offers, to schedule delivery, or for bulk purchases, call The H&K Group Materials Division Sales Department at 610-222-3042 or email StoneSales@hkgroup.com.

About Hazleton Materials

[Hazleton Materials](#) is a proud member of [The H&K Group](#) Family of Companies, and has been producing a variety of crushed stone for the construction industry since the year 2000. Nestled in the heart of Pennsylvania's coal country, Hazleton Materials serves Luzerne and Carbon Counties and the surrounding areas. All common construction aggregates as well as many specialty products are kept stocked at this facility. They offer delivery service to contractors and homeowners on all materials produced.

About ABE Materials – Easton

[ABE Materials - Easton](#) is a proud member of [The H&K Group](#) Family of Companies, and has been producing a full line of stone products and asphalt materials since 1984. In addition to agricultural limestone, ABE offers a blue/gray limestone and dolomite that yields an exceptional aggregate product. This aggregate has various PENNDOT, NJDOT and NYDOT approvals. ABE Materials also utilizes material from their crushed stone operation to offer all PENNDOT and NJDOT asphalt mixes, as well as various custom mixes, all SUPERPAVE mixes, and high performance and standard 485 cold patch. The state-of-the-art facility includes an on-site laboratory to ensure quality control, and three 200-ton storage silos that provide rapid product delivery for voluminous jobs.
